

LYCONET COMPENSATION PLAN

1. General

Lyconet Marketing Agency Limited with registered office at 3rd Floor, 40 Bank Street, London E14 5NR, United Kingdom, together with its subsidiary companies (both hereinafter referred to as Lyconet), operates an international Marketing Agency. Its task is to optimally support independent entrepreneurs in building a successful business.

Lyconet cooperates with myWorld International Limited with registered office at 3rd Floor, 40 Bank Street, London E14 5NR, United Kingdom, which operates a Benefit Program. Customers who take part in the Benefit Program receive benefits such as Shopping Points when purchasing goods, services, travels, etc. from the myWorld Group and/or its Loyalty Merchants.

In order to market the benefits of the Benefit Program efficiently, myWorld International Limited collaborates with Lyconet and Lyconet uses independent entrepreneurs - so-called Lyconet Marketers (Marketers). These acquire new customers and Loyalty Merchants for the Benefit Program and distribute or mediate the products and services from this program. They are supported by Lyconet with well-founded know-how and receive earnings for their marketing and mediation activities based on the purchases and/or orders made (mediated sales from the Benefit Program).

A Marketer can also acquire new Marketers, who in turn acquire customers, Loyalty Merchants and new Marketers and distribute and mediate products and services from the Benefit Program.

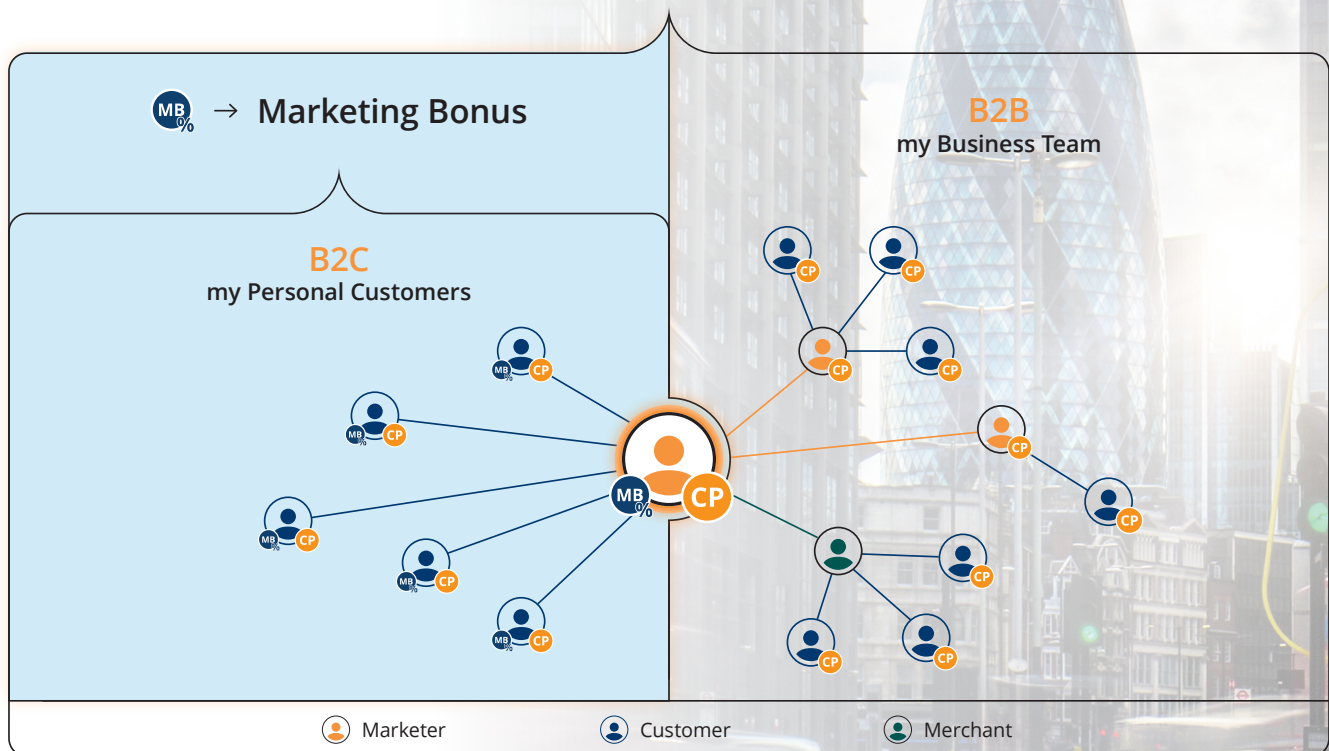

2. The Business of a Marketer

Through the acquisition of new customers, Loyalty Merchants and Marketers, a Marketer builds his so-called **"Organization"**.

my Business

Organization
Structure

CP → Career Commission & Career Bonus

Personal Customers:

A Marketer's (personal) customers are members of the Benefit Program within the Marketer's Organization (until the next Marketer), who have not signed a Lyconet Marketing Agreement and are therefore not Marketers themselves.

Business Team:

A Marketer's Business Team includes all Marketers and Loyalty Merchants (Merchant) within his Organization.

The Organization of a Marketer consists of all Marketers, Loyalty Merchants or customers who can be attributed to him, as well as their recommendations.

For the marketing and mediation activities of the Marketers in his Organization, the Marketer also receives earnings based on the purchases and/or orders made.

3. Calculation of earnings for operating as a Marketer

Lyconet provides its Marketers with several options for receiving earnings for their activity. These are explained in more detail in the following sections.

Earnings are calculated during each respective Production Month. The Production Months are defined annually in advance and can be viewed in the Download Area under "Production Dates" after logging in at www.lyconet.com. A Production Month consists of 4 or 5 Production Weeks, which always run from Wednesday to Tuesday.

4. Earnings based on the purchasing volume/ Marketing Bonus

Every Marketer receives earnings which are based on their (personal) customers' purchasing volume:

As compensation for his marketing and mediation activities, a Marketer benefits from all purchases and orders that his customers make at myWorld and Loyalty Merchants. For these purchases and orders, he receives a Marketing Bonus once per Production Month. This Marketing Bonus generally amounts to up to 1% of the customer's purchasing volume. For specified, designated products, however, a set Marketing Bonus may also apply.

If the Marketer is a Member of the Benefit Program himself, he will also receive up to 1% Marketing Bonus for his own purchases and orders made within the Benefit Program.

5. Earnings based on the Career Point volume/ Career Bonus & Career Commission

Every Marketer receives earnings which are based on his entire Organization's purchasing volume:

The basis for these earnings are the so-called Career Points. These are generated as soon as purchases within the Benefit Program are made in the Marketer's Organization. The number of Career Points granted for purchases at myWorld or at the respective Loyalty Merchant can be seen after logging in at www.lyconet.com and depends on the conditions that myWorld has agreed with the selected Loyalty Merchant or that myWorld offers for its own products, travel and services.

Furthermore, the Marketer receives Career Points for designated products or services outside the Benefit Program that he himself or the Marketers in his Organization have purchased or ordered.

Based on the number of Career Points generated in the Marketer's Organization per Production Month, the Marketer can reach a Career Level.

The Marketer will receive the following monthly Earnings when reaching a Career Level:

1. Career Bonus
2. Career Commission

The Career Level achieved by the Marketer forms the calculation basis for the Career Commission as well as for the Career Bonus.

Additionally, the Marketer receives Premium Marketer status when he reaches a Career Level for the first time. This status is fixed for the duration of the Lyconet Marketing Agreement, even if the Marketer is no longer on a Career Level.

5.1. Reaching a Career Level

To reach a certain Career Level the Marketer must meet **both** of the following requirements :

Requirement 1:

Together with his Organization, the Marketer must generate the total number of Career Points needed (as demonstrated in the following table) for the specific Career Level in the given Production Month. All Career Points generated within the Production Month will be counted.

Requirement 2:

Together, all the Lines* within the Marketer's Organization must generate the minimum number of Career Points, as shown in the table below. The Career Points must stem from at least 3 Lines and only the maximum number of Career Points shown in the table below will be counted for each Line. Career Points resulting from the Marketer's own purchases and orders (personal Career Points) will not be counted for requirement 2.

Requirement 1	
Career Level	Total number of Career Points
1	600
2	1,600
3	6,000
4	20,000
5	50,000
6	200,000
7	500,000
8	1,250,000

Requirement 2			
Minimum number of Career Points from all Lines	Maximum number of Career Points counted per Line		
	Line 1	Line 2	Line 3
300	100	100	100
900	300	300	300
3,000	1,000	1,000	1,000
9,000	3,000	3,000	3,000
30,000	10,000	10,000	10,000
90,000	30,000	30,000	30,000
300,000	100,000	100,000	100,000
900,000	300,000	300,000	300,000

* A Line within a Marketer's Organization is formed by each direct recommended Marketer and his Organization.

Bonus Lines

In addition to the Lines which result from the Marketer's Organization, each Marketer has 3 separate Bonus Lines. All Career Points generated through purchases and orders made by the Marketer's customers are evenly distributed across these 3 Bonus Lines. Additional Career Points, which will also be divided equally between these Bonus Lines, will be displayed separately. The maximum number of Career Points counted per Line (as shown in the table) does not apply to the 3 Bonus Lines.

Example 1:

A Marketer is currently in Career Level 1 and wishes to reach Career Level 2. In the current Production Month, he and his Organization have generated a total of 1,630 Career Points. These are distributed as follows:

Total number of Career Points (Requirement 1)

Bonus Line 1	Bonus Line 2	Bonus Line 3	Line 1	Line 2	Line 3	Line 4	Line 5	Additional Lines	Personal Career Points	Total (generated/required)	
100	100	100	850	200	150	50	0	0	80	1,630/1,600	✓

The Marketer has generated the required total number of Career Points and therefore meets the first requirement for Career Level 2.

Counted Career Points (Requirement 2)

Bonus Line 1	Bonus Line 2	Bonus Line 3	Line 1	Line 2	Line 3	Line 4	Line 5	Additional Lines	Personal Career Points	Total (generated/required)	
100	100	100	300	200	150	50	0	0	0	1,000/900	✓

The required minimum number of Career Points has been generated in the Marketer's Lines. The Marketer has therefore also fulfilled the second requirement and therefore reaches Career Level 2.

Example 2:

A Marketer is currently in Career Level 2 and wishes to reach Career Level 3. In the current Production Month, he and his Organization have generated a total of 6,800 Career Points. These are distributed as follows:

Total number of Career Points (Requirement 1)

Bonus Line 1	Bonus Line 2	Bonus Line 3	Line 1	Line 2	Line 3	Line 4	Line 5	Additional Lines	Personal Career Points	Total (generated/required)	
210	210	210	3,700	2,000	150	100	20	0	200	6,800/6,000	✓

The Marketer has generated the required total number of Career Points and therefore meets the first requirement for Career Level 3.

Counted Career Points (Requirement 2)

Bonus Line 1	Bonus Line 2	Bonus Line 3	Line 1	Line 2	Line 3	Line 4	Line 5	Additional Lines	Personal Career Points	Total (generated/required)	
210	210	210	1,000	1,000	150	100	20	0	0	2,900/3,000	✗

The Marketer does not fulfill the second requirement and therefore does not reach Career Level 3. To meet the second requirement, his Lines need to generate another 100 Career Points (with the exception of Line 1 and 2, where the maximum number of counted Career Points has already been reached).

Example 3:

A Marketer is currently in Career Level 1 and wishes to reach Career Level 2. In the current Production Month, he has generated a total of 1,600 Career Points through his Bonus Lines as well as his personal purchases and orders. These are distributed as follows:

Total number of Career Points (Requirement 1)

Bonus Line 1	Bonus Line 2	Bonus Line 3	Line 1	Line 2	Line 3	Line 4	Line 5	Additional Lines	Personal Career Points	Total (generated/required)	
500	500	500	0	0	0	0	0	0	100	1,600/1,600	✓

The Marketer has generated the required total number of Career Points and therefore meets the first requirement for Career Level 2.

Counted Career Points (Requirement 2)

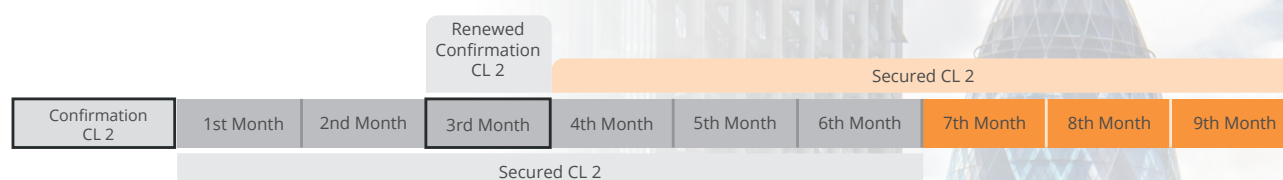

Bonus Line 1	Bonus Line 2	Bonus Line 3	Line 1	Line 2	Line 3	Line 4	Line 5	Additional Lines	Personal Career Points	Total (generated/required)	
500	500	500	0	0	0	0	0	0	0	1,500/900	✓

The required minimum number of Career Points has been generated in the Marketer's Bonus Lines. The Marketer has therefore also fulfilled the second requirement and therefore reaches Career Level 2.

Confirming and securing of a Career Level

If a Marketer has generated the required number of Career Points for a specific Career Level within a Production Month, the Career Level is automatically confirmed.

If a Marketer confirms a Career Level, it is subsequently secured for the next 6 Production Months. If the Marketer fails to confirm the Career Level again within these 6 Production Months, the Career Level below is secured for a further 6 Production Months.

5.2. Career Bonus

For every Production Month in **which the Marketer confirms a Career Level**, he is entitled to a Career Bonus for the corresponding Career Level. The value of the Career Bonus can be found in the table below.

Career Bonus per Career Level								
Career Level	1	2	3	4	5	6	7	8
Career Bonus	NZD 100	NZD 400	NZD 1,000	NZD 2,400	NZD 6,000	NZD 16,000	NZD 40,000	NZD 100,000

5.3. Career Commission

For every Production Month in **which the Marketer confirms or secures a Career Level**, he is entitled to a Career Commission for the corresponding Career Level. The calculation for this is based on all Career Points within the Marketer's Organization as well as the Career Points from his personal purchases and/or orders. The value of the Career Commission per Career Point can be found in the table below.

Career Commission per Career Level								
Career Level	1	2	3	4	5	6	7	8
Career Commission per Career Point	NZD 0.050	NZD 0.065	NZD 0.075	NZD 0.085	NZD 0.095	NZD 0.105	NZD 0.115	NZD 0.125

Career Points from the purchases and/or orders made by the Marketer, the Marketer's customers and all Marketers within his Organization without a Career Level as well as their customers, are multiplied by the full factor applicable for the Career Level confirmed or secured by the Marketer (Career Commission multiplied by the number of Career Points).

Career Points from the purchases and/or orders of the Marketers from a direct Line who have confirmed or secured a Career Level as well as from their Organization are multiplied by a reduced factor (difference between two Career Levels). The factor of the lower Career Level is subtracted from the factor of the higher Career Level.

Example:

A Marketer has confirmed Career Level 6. One of his recommended Marketers has confirmed Career Level 4 in the same Production Month. The Career Points from this direct Line will only be remunerated to the Marketer with Career Level 6 in the amount of NZD 0.02 per Career Point. These NZD 0.02 are the difference between the Career Commission for the Career Level 6 which he has reached and the Career Commission for the Career Level 4 of his Marketer.

6. Payout of earnings

Earnings to which the Marketer is entitled will be accumulated and transferred to the bank account specified by the Marketer as soon as the Marketer has had at least **5 active customers*** at any point in time and the minimum amount specified during the Lyconet registration has been reached.

Lyconet reserves the right to change this minimum amount at any time. The currently applicable minimum amount as well as the payout date for the earnings of the respective Production Month can be seen after logging in at www.lyconet.com (the latter can be found in the Download Area under "Production Dates").

Should Lyconet offer the Marketer further alternative methods for receiving his earnings (in addition to a transfer to his bank account), these will be displayed at www.lyconet.com. In this case, the Marketer can select the desired option in his personal profile.

* An active customer is a Member of the Benefit Program within the Marketer's Organization until the next Marketer, who has not signed a Lyconet Marketing Agreement and is therefore not a Marketer himself and who has also spent at least NZD 20 at myWorld and/or Loyalty Merchants. Direct recommended Marketers as well as direct recommended Loyalty Merchants who are also Members of the Benefit Program are counted as active customers if they have spent at least NZD 20 at myWorld and/or Loyalty Merchants.
